Enclose stamped, self-addressed envelope with check and the names of your guests, if possible. Door prizes for the lucky ones! Reserve now.

#### CHAIRMAN'S CORNER

The ever increasing number of members in the Sierra Club as well as the overwhelming interest in the outdoors by the general public presents new and challenging problems for those who guide our policies governing outings.

With turnouts for local hikes now often numbering in excess of 75 and Sierra trips where the leaders are required to enforce reservations in order to limit numbers, we are faced with a problem nearing the critical stage long before we are sufficiently prepared to handle it.

To organize a trip and prepare the necessary details takes considerable time by the leaders. Two persons can effectively plan and control a group of 30-40 persons for a day's hiking, but a similar number for a week-long backpack would probably require four leaders. How can we effectively schedule weekly outings for numbers in excess of 100, which has occurred on various popular outings six times this past year? The first solution would seem to be that we need more leaders. True, but we must consider the training required to make leaders available for trips takes considerable organization and the experience comes only with time. Further, we must also consider the impact on the area in our plans.

The problems this presents are becoming acute and will require prompt action to facilitate the long-term solution. Should we schedule conflicting trips to perhaps reduce the numbers on any one hike? What are the alternatives?

The former policy that HPS outings would be the only ones to present peak climbs in the local mountains by necessity was dropped due to the need for more leaders and broader coverage. Local hikes and group trips have helped in this regard.

I do not pretend to know the answer to this problem, but on behalf of the Section, will present it for consideration at the next Advisory Council meeting. The recommendation will be that a study team be established from the hiking sections and other interested groups to establish policy recommendations for approval by the Council and ratification by the Executive Committee of the Chapter. These will then serve as guidelines for future scheduled outings by all Angeles Chapter members.

MOUNTAIN RECORDS CORNER

Current Mountain Records Committee interest regarding the area of our official "Peak List" is expressed in the recent recommendations presented to the membership for consideration. These suggestions took the form of offering additional and more meaningful guidelines with the thought of establishing definite criteria for a more comprehensive policy on future additions and deletions.

Annual Membership Meeting Results

The three items pertaining to mountain records that were presented for consideration to the membership at the recent meeting were: (1) Peak list criteria (2) Deletion of 10 suggested peaks (3) Addition of 3 peaks. Considerable interest was aroused, thereby increasing the participation during the discussion of the issues. The voting members expressed their wishes as follows:

1. Adoption of criteria as a guideline in all future peak list considerations (9/68 Lookout)
2. Deletion of 2 of the suggested 10 pks./mtns., Baldy Mtn. and Table Mtn. from the list.
3. Adoption of all 3 suggested additions, Onyx Pk. #2, Pinyon Pk., 10,000 Ridge.

Climbers Guide Project

The committee is pleased to announce that we have accomplished the task of completing 75 Climber Guides (approximately 1/3 of our total peak list), which are immediately available to members.

As chairman, I want to thank all those persons who have unselfishly contributed their time and energies in furthering this project.

Following is the current list of completed Climber Guide write-ups:

#### SONGSTER'S CORNER

Our songster's group should feel very proud of the attention our mountaineers are receiving from the song writing fraternity. The Sierra Club is now influencing the song writers in depth. There seems to be a song for each of us in the club.

The very appropriate assistant leader's lament - "I'LL WAIT FOR YOU."

The solo climber (Heaven forbid) - "I WALK ALONE," "SOLITUDE."

The Peak Bagger's desire - "CLIMB THE HIGHEST MOUNTAIN."

The very beautiful thought for the new climber - "COME INTO MY WORLD."

The timid climber request - "HOLD MY HAND,"

"ON A CLEAR DAY YOU CAN SEE FOREVER" is the favorite of any summit lover.  
We are reminded of mists we have seen and scenes we have missed.

The saga of the "No rest stop" leader - "ALL THE WAY."

The mystery tune of the Climber's Non-Climbing Wife - "AFTER YOU'VE GONE."

Frank Sinatra's newest hit is the trip leader's motto - "FOLLOW ME."

And the long-time perennial favorite that each of us has known at one time or another - "LOST."

SUGARLOAF MTN.  
ONYX MTN.

September 14, 1968

Leader: DON McLELLAN  
Asst: BOB FUNKE

Forty-three climbers caravanned from South Fork Campgrounds over a very dusty road to Wild Horse Meadows. Aply led by Don McLellan, the hike went over four false peaks on a good trail to the top of Sugarloaf. The day was very clear and afforded excellent views of pastel-hued dry Baldwin Lake and the deep blue of Big Bear. Lunch on the summit plus attempts to bag butterflies with plastic bags substituting for nets added to the enjoyment.

After hiking down (the assistant leader was not exactly lost but a bit confused) twenty-four people went to Onyx -- a dusty drive up -- and twelve others left the group to bag three or four other nearby peaks.

ROUND, LUNA, AND  
RATTLESNAKE MTNS.

October 5, 1968

Leaders: WALLY HENRY  
BETH HENRY

The A and W Root Beer Stand in Hesperia witnessed a strange gathering of 40 odd (?) people on October 5. These people later in the morning arrived on top of something called Round Mountain. They looked around and except for the fact that it was a beautiful day, could not figure out why they had come, so they left.

Most of them met a rattlesnake on the way to lunch on Rattlesnake Peak.

By 2:00 p.m., they had survived two car shuttles and had marked two peaks off their list and were headed for their third, Luna. Some of the group lost their heads and started considering the chance of doing White or Hawes before calling it a day. The leader, figuring they didn't really mean it, volunteered to lead a group up Hawes while Paul Lipsohn did the same to a group who needed White.

Camping at Horsesprings was made more enjoyable by Steve Molner leaving for Fawnskin. (Ed.-Steve returned with cold beer)

The quiet of Sunday morning was shattered by a shout from the leader, "6:30, everybody up." By this time the number of eager hikers were down to 18. They left Hawes Ranch at 8:30 on the dot for Shay Mtn., then on to Deer where lunch was eaten. At this point several more people came to their senses and declined invitations to go on to Ingram and Little Shay. The official trip was declared over with an opening of cold beer at the cars at 4:00 p.m.

Three peak baggers went on to climb Hawes for a 9 peak weekend --- I don't know if they got back.

We are saddened to hear of the death of Hazel Elbinger, Emblem Holder #42. Hazel was extremely active in the early activities of the H.P.S. and recently renewed her interest in the section. A tree will be planted in the Angelus National Forest in her memory. May she reach the highest mountain that she seeks and relax in the cool grassy meadows.

MT. LOWE

October 13, 1968

Leader: KEN FERRELL

I had a feeling when I left home about 5:30 a.m. that it was going to be rather lonely on Mt. Lowe by myself. Noone had called and only one other person had said anything about participating in the work party. Fortunately, the turnout was better than I had thought it would be. After getting a permit at Red Box, six of us proceeded to Mt. Lowe with four others arriving a little later.

A new register book which contains some Mt. Lowe history and pictures of Rubio Hotel and the Inclined Railway, Echo Mountain House, the Electric Trolley and the Alpine Chalet was placed in the new cairn made from available stones on the summit. The viewing-tubes were given a nice bright coat of paint and the name of the peak it is sighted on was stenciled on each side. In addition, broken glass and old cans were removed from the summit area and trail maintenance was done from Markham Saddle to the summit of Mt. Lowe.

The recent article on Mt. Lowe in the Herald Examiner apparently created a new interest in the peak. During the two days I was in the area this past weekend, I met several people who wanted to know how to get to Mt. Lowe. It is hoped that through ~~our~~ work people who will go there will better understand the area as it was in the days of the Mt. Lowe Railway.

I certainly appreciated the assistance of the people who came on a very enjoyable trip. This is something that we as a conservation group should do more of. There are several other old trails in this area which are badly in need of attention. Any volunteers?

MT. BADEN-POWELL  
ROSS MOUNTAIN

OCTOBER 19, 1968

Leader: BOB HERLIHY  
Asst: BILL MAINLAND

The dumb-dumb trip. Where else can you start at 7400' (Whitehorn Picnic Ground) to climb a peak 2' higher than your starting point (Ross Mountain, 7402') gaining and losing 2000' to get there, and climbing a mountain (Mt. Baden-Powell) twice in the same day before you get back?

Many people climbed Mt. Burnham on the way up, and altogether 42 people participated in this outing. Forty people signed in at the summit of Baden-Powell, in the sunny, cool morning. Seventeen smart people returned to the cars from there. Twenty-three not-so-smart people went down the long ridge southward to Ross Mountain, where we had an enjoyable lunch, and a splendid view of Mt. San Antonio, Iron Mountain #1 and several others. After lunch we started the long 2000' climb back up the ridge on the south side of Mt. Baden-Powell. This was the strenuous part of this trip. On the summit again, we were delighted at the graceful soaring of five gliders directly overhead. One, very close, responded to our waving by dipping his wings.

The last climbers returned to the cars just before dark, quite tired from a long day's climb. We were fortunate in having a clear, cool day, and the congenial group added to the enjoyment of the venture.

CONE PEAK  
THOMAS MTN.

October 20, 1968

Leader: HOW BAILEY  
Asst: FRED BODE

Forty-eight hikers turned out on a beautiful fall day for the bushwhack assault on Cone Peak. There were kids, and also several of the "old timers" with outstanding HPS records. We followed a trail of sorts past Hop Patch Spring, and then up to the saddle between Cone and Palm View. From there it was pretty brushy back to the peak, but all but two made it. About half the group signed in on both rock summits, but a level indicated that the more northerly of the two, the easier one holding the HPS register, is actually the higher. There was a fancy celebration for a 200-bar, a 100-emblem and a birthday. A more direct but steeper route, also brushy, was taken down. This went south to the first saddle, then left down a valley (keeping right of a tree-covered rocky mound about 2/3 down) right to the cars.

After collecting all the strays and would-be rescuers, we headed to Thomas Mtn. With a terrific burst of energy, we made it a full 1/4 mile from the Lookout to the high point, and then back to the cars for more celebrating! Two emblems and another birthday were recognized with the biggest party yet -- champagne, peaches, brownies, two cakes and more champagne. Bob Funke was acclaimed Assistant Schedule Chairman for Celebrations.

TEHACHAPI MTN.  
LIEBRE TWINS

October 26-27, 1968

Leader: STEVE MOLNAR  
Asst: HOW BAILEY

The biggest fiasco yet! Let's face it, that's all we can say. Some 75 people got up early and drove out to the north side of Antelope Valley, half way between Gorman and Rosamond, expecting to be led up two never (?) scheduled peaks. So what happened? The leader, who had spent a great deal of effort arranging permission for this trip and had driven around to the Tejon Ranch that morning to pick up a key, got lost on the dirt roads wandering above the aqueduct. We are very sorry.

While the leader stayed to unravel the maze of roads without the pressure of a caravan of 32 cars behind him, the assistant leader led about half the group (38 to be exact) up Black #3. Over half of these stayed overnight at the excellent Kern County Park south of Tehachapi, and 20 climbed Double Mtn. on Sunday. Fred Bode served as assistant. This was a delightful hike, partly cross-country and partly on closed fire roads, covering 10 miles RT and almost 4000 ft. of gain in 6½ hours. It turns out we also climbed Tehachapi Mtn., the new official name for what used to be known locally as Woody's. (So what's with the "old" Tehachapi Mtn.? The high point on a ridge that was never officially named?)

FLASH! CORNER

EDITOR INTERVIEWS SHIRLEY AKAWIE, FIRST FEMALE 200 PEAKER

WHY DID YOU START CLIMBING?

I was bound, tied, and dragged by my husband.

HOW MANY CLIMBERS ARE IN YOUR FAMOUS FAMILY?

Lost track long ago.

HOW LONG HAVE YOU BEEN CLIMBING?

Three years, but it seems like 100.

MOST FUN TRIP?

Rattlesnake in August. (Ed. - She's got to be kidding!)

MOST DISAGREEABLE?

Champagne party on top of San Gorgonio - Oh, my head!  
(Ed. - And Cholla Cactus party on Castle Dome)

MOST HUMOROUS INCIDENT?

Getting lost on the first day of hunting season.

HOW DID YOU FEEL ON THE 100th PEAK?

Exhausted.

HOW DID YOU FEEL ON THE 200th PEAK?

Exhilarated.

WHAT ARE YOUR ASPIRATIONS?

None, but my husband would like me to complete my desert peaks emblem and obtain a Sierra Peaks emblem. After all, I cannot be the black sheep in the family.

WHAT WOULD YOU LIKE TO CLIMB EVENTUALLY?

The highest spot in Holland.

WHAT DO YOU FEEL ARE THE BENEFITS?

It keeps my husband slender and handsome. Good for his heart too.

WHAT ARE YOUR OTHER ACTIVITIES?

County Museum of Natural History (take school children on tours through the halls). Participate in art class. Book chairman of the West Los Angeles group of the Sierra Club. Visiting doctors.

THANK YOU, SHIRLEY.
